

Honeywell Total Connect®

Video Solutions

SECURE VIDEO NOTIFICATION, ALARM VERIFICATION
AND REMOTE LOOK-IN SERVICES FOR YOUR HOME

Picture the Possibilities

Honeywell

Focusing on What Matters Most

Who says you can't be everywhere at once? View live video on the go for anytime peace of mind with Honeywell Total Connect® Video Solutions. Whether you're across the street or across the world, checking up on your home is as easy as checking your phone.

Live, Look-in Video

- Keep an eye on your home anytime, anywhere, from any web-enabled smart device or computer—with or without a security system
- Check up on your kids, babysitters, pets, elderly loved ones, contractors and housekeepers
- Monitor vulnerable spots like entrances, patios, pool areas and more
- View up to six cameras at a time, including low-light models for visibility in dark indoor environments
- Remotely move pan/tilt cameras to see different views of an area
- Look in on multiple locations from a single account—great for vacation home owners and real estate investors
- Free apps for iPhone®, iPad® and Android™

Portable indoor and outdoor cameras can be placed virtually anywhere!

Real-Time Alerts

Get email notifications, text and video alerts to know what happens in real time. You can see exactly when your child gets home from school, when a pet sitter arrives or when a door, gate or window is opened. You can customize notifications by time, day or motion detection so you only view the events you want to.

Mobile

Honeywell Total Connect® Video works with iOS and Android™ devices for easy, on-the-go control. It supports Touch ID™ — a fingerprint recognition feature available for iPhone® and iPad® users. Free apps are available.

App for iOS devices available in the Apple® iTunes® App Store. Android app is available in the Google Play Store. Apple, iPhone, iPad, iPod touch, Touch ID and iTunes are trademarks of Apple Inc. All other trademarks are property of their respective owners.
